DFC VILLAGE FESTIVAL - FIFA ARAB CUP

OVERVIEW:

To celebrate the FIFA Arab Cup 2025, we transformed Doha Festival City's outdoor space into a dynamic fan destination featuring high-impact branding and immersive entry arches. The activation integrated professional sports broadcasting on giant screens with a lineup of major headline performances by regional icons, including **Al Shami**, **DJ Aseel**, and **Rahma Riad**. By combining live entertainment with interactive gaming hubs and family zones, the festival successfully positioned "The Village" as Qatar's premier open-air lifestyle and tournament hub.

ABSOLUTE CHAMPIONSHIP OF BRAZILIAN JIU-JITSU

OVERVIEW:

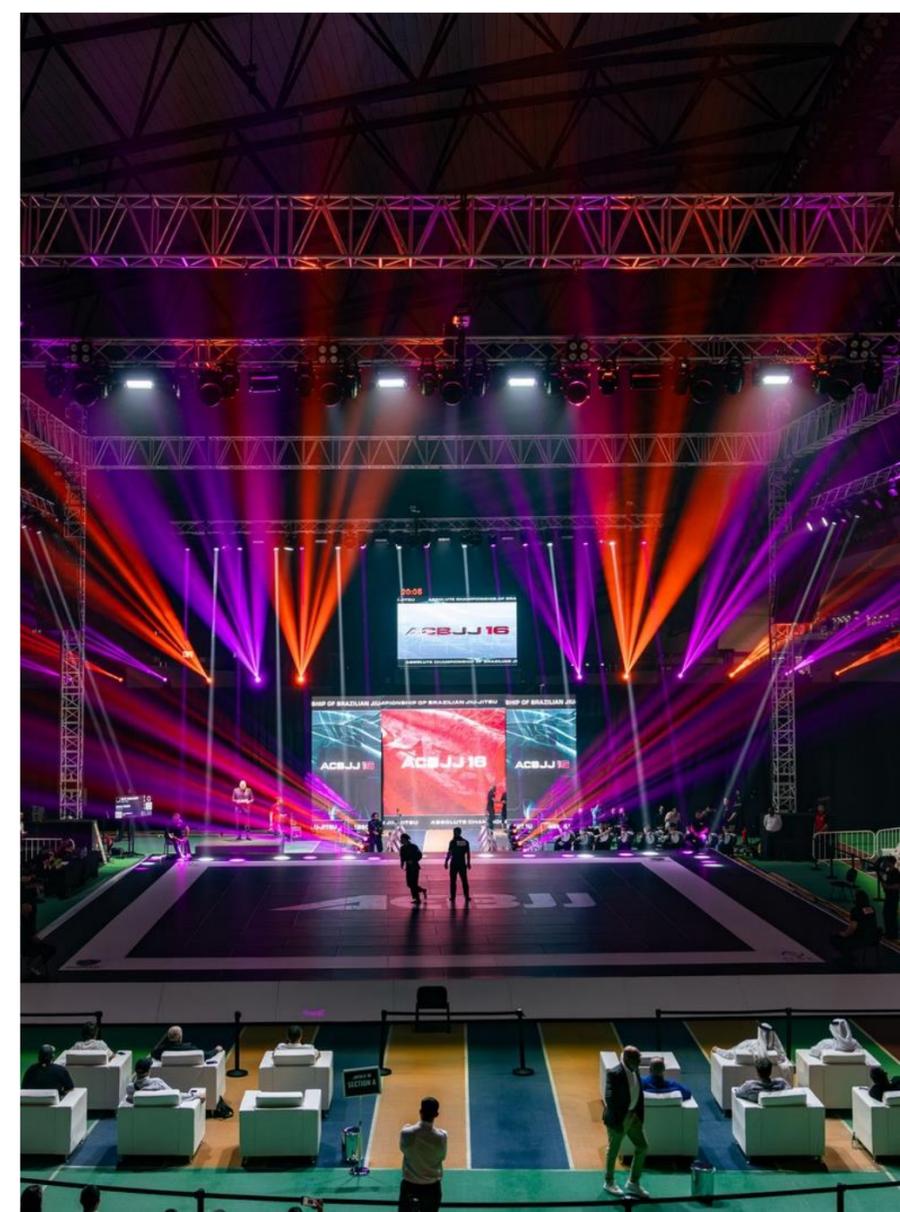

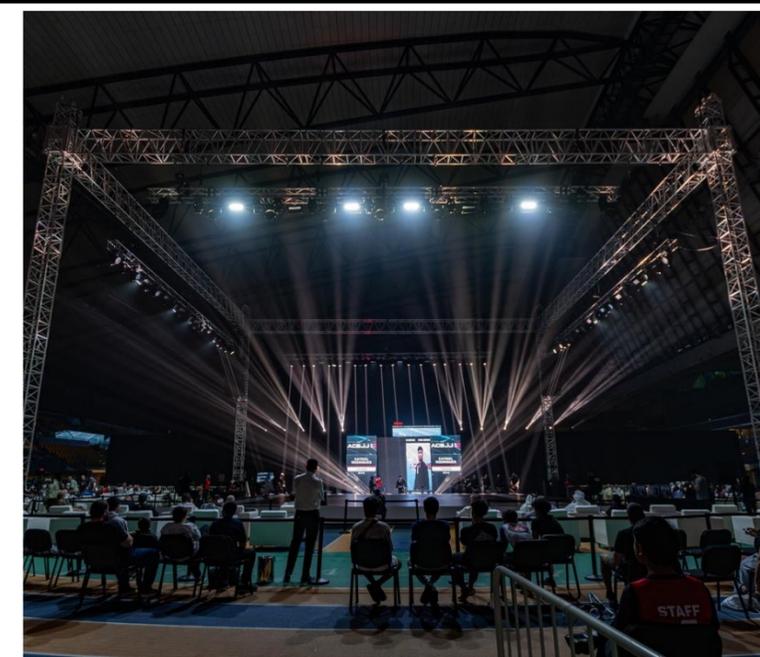

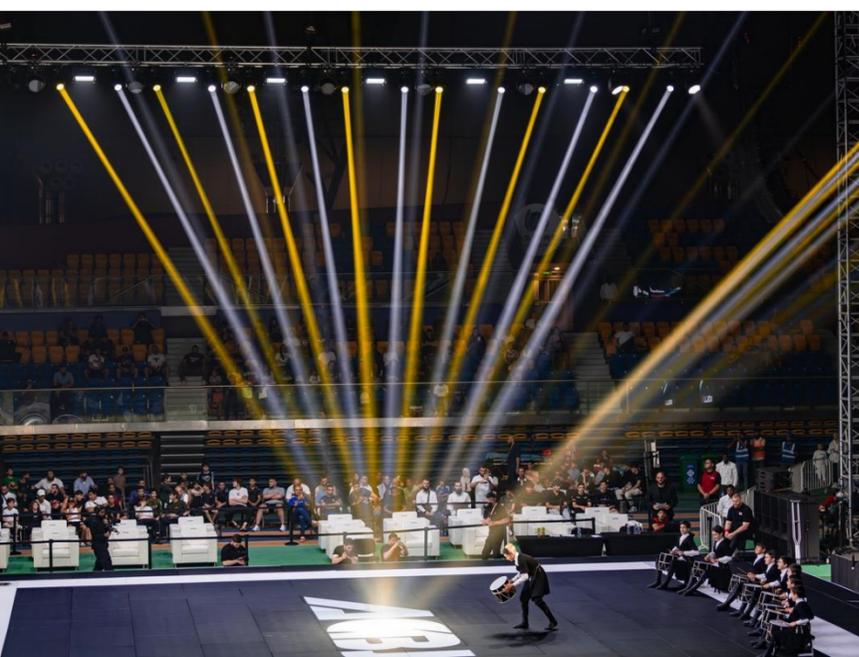

We successfully delivered the ACBJJ World Open Championship at the Aspire Dome, leveraging the venue's world-class infrastructure to manage a high-volume, international combat sports production. Our team coordinated the seamless transition between Gi and No-Gi divisions, ensuring that the logistics of multiple competition zones met the rigorous standards of elite global grappling. By hosting this event in Doha's premier indoor arena, we effectively showcased our ability to execute large-scale athletic tournaments while strengthening Qatar's reputation as a strategic destination for professional martial arts.

F1 QATAR GRAND PRIX VILLAGE

F1 QATAR - LEGENDARY HELMETS

OVERVIEW:

We orchestrated a city-wide art trail featuring ten 1.8-meter "Legendary Helmets" stationed at iconic landmarks across Doha. Our team managed the end-to-end logistics, including the fabrication of the monumental sculptures and the seamless integration of custom artwork from both local and international artists. The activation transformed the city into an open-air gallery, effectively bridging Qatari heritage with the high-speed innovation of Formula 1.

SCOPE OF SERVICES:

- SCULPTURE FABRICATION & ENGINEERING
- COMPLEX LOGISTICS & DEPLOYMENT
- SITE SURVEYING & PERMITTING
- MAINTENANCE & SECURITY

F1 QATAR LEGENDARY HELMETS

F1 QATAR - 360 EXPERIENCE DOME

OVERVIEW:

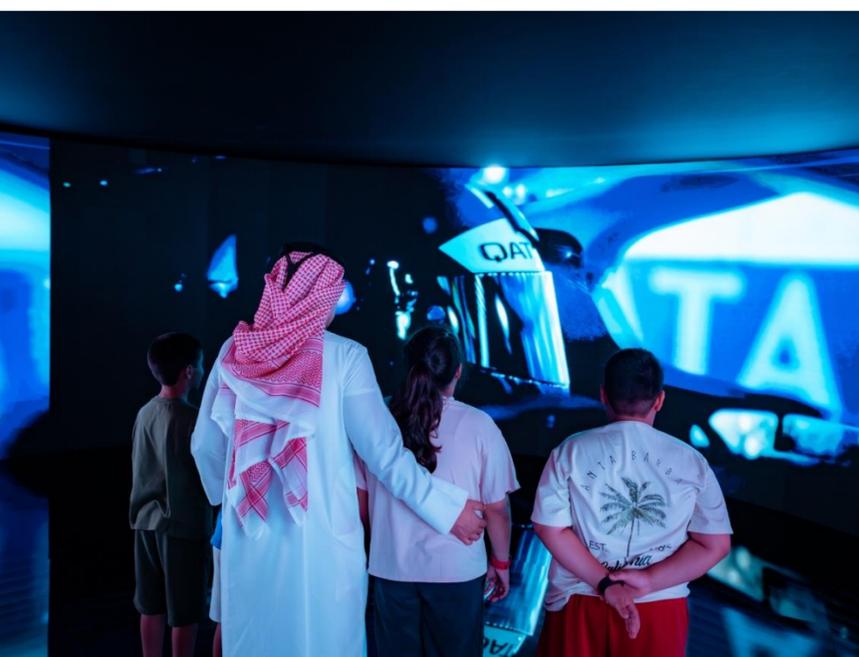

We engineered a high-tech immersive dome using curved LED screen technology to provide fans with a hyper-realistic 360° driver's POV experience. Unlike traditional projection, the high-resolution LED interior delivered flawless brightness and contrast, placing visitors directly in the cockpit of an F1 car. This activation served as a premier fan engagement hub, combining cutting-edge engineering with sensory storytelling to bring the speed of the track into the heart of the city.

SCOPE OF SERVICES:

- ADVANCED LED ENGINEERING
- 4K POV CONTENT INTEGRATION
- STRUCTURAL SAFETY & HVAC
- CALIBRATION & ALIGNMENT
- ON-SITE OPERATIONS & LOGISTICS
